### Dragon Extrication and BBP Rescue gloves

Designed for extrication and rescue professionals, these gloves have all of the features needed to protect hands from sharps, hot tools, hot vehicle components and in the case of the BBP gloves, from bodily fluids.

These are the only gloves on the market that offer both heat and sharps protection in a lightweight format. The patented Kovenex liner will provide the extra protection that rescue professionals demand during vehicle extrication whilst ensuring superior dexterity.

- Kovenex certified lining
- Reinforced finger and palm protection
- Blood borne pathogen liner (BBP Rescue model)
- Finger webbing protection
- Shock-absorbing knuckle guard padding
